---

Thanks Bob. We received a copy late on Wednesday. Danny was going to call IEPA soon to discuss how we might be able to address these issues before the permit was issued final.

I appreciate the efforts that IEPA is undertaking independently to proactively address the concerns raised. We will talk soon.

Genevieve,

Here is the petition to object that was sent by Keith Harley regarding Meyer Steel Drum. We are planning to hold a public hearing for this permit, but the decision has not been finalized as of yet. Therefore, this should no longer be considered to be a proposed permit at this time.

Bob Bernoteit  
Acting Permit Section Manager,  
Illinois EPA, Division of Air Pollution Control
